Narrative

██████████ contacted the YWCA Rape Crisis Hotline and spoke to ██████████ this morning after Julia brought Madeline (3) to Edwards Hospital in Naperville for a rape kit because she suspected that Madeline has been sexually abused by her father. ██████████ did not have the father's first name, address or phone number. Julia suspected sexual abuse because she found a stain in Madeline's underwear. ██████████ unaware of Madeline disclosing any abuse, there were no signs of abuse and reporter is unaware of the hospital evaluation showing anything. This is the 4th rape kit that Madeline has had and the 10th hospital visit. The hospital and police in Naperville are very aware of Julia. ██████████ works at Edwards Hospital and this morning was working in the ER, Pod A. ██████████ stated that there is a concern of Munchausen by Proxy and it is listed in medical notes. ██████████ contacted the hotline and the intake was documented as a MCNRT, Intake ID number 13280933. No reported AKA's, disabilities, safety concerns, Native American ancestry, history of substance abuse, domestic violence or child death. Support systems: paternal grandparents and uncle. LEADS requested. SACWIS = positive, CYCIS = closed. Four previous sexual abuse allegations have been taken against Kevin Kramer who is listed as Madeline's father, all prior allegations have been unfounded.

Allegations/Relationship

Alleged Perpetrator: EICKMEIER, JULIA
Alleged Victim: Kramer, Madeline
Relationship: Mother
Allegation: 10b- Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare – Medical Child Abuse (Factitious Disorder by Proxy or Munchausen by Proxy Syndrome)
Allegation Finding: Indicated

Evidence suggesting an incident occurred and that the alleged perpetrator is responsible:

Source contacted the YWCA Rape Crisis Hotline and spoke to reporter this morning after Julia brought Madeline (3) to Edwards Hospital in Naperville for a rape kit because she suspected that Madeline has been sexually abused by her father. [REDACTED] did not have the father's first name, address or phone number. Julia suspected sexual abuse because she found a stain in Madeline's underwear. [REDACTED] unaware of Madeline disclosing any abuse, there were no signs of abuse and reporter is unaware of the hospital evaluation showing anything. This is the 4th rape kit that Madeline has had and the 10th hospital visit. The hospital and police in Naperville are very aware of Julia. Source works at Edwards Hospital and this morning was working in the ER, Pod A. [REDACTED] stated that there is a concern of Munchausen by Proxy and it is listed in medical notes.

Four previous sexual abuse allegations have been taken against Kevin Kramer who is listed as Madeline's father, all prior allegations have been unfounded.

[HS] 2188898C Kramer, Kevin 05/23/2016 Unfounded

Dr. Petrak from the Pediatric Resource Center in Peoria reviewed various records that were sent to her in regards to Julia's ongoing behavior of taking Madeline to various hospitals to be checked out for sexual abuse. Dr. Petrak writes the following in essence not verbatim: Madeline's mother has been concerned about someone sexually abusing Madeline since she was 7 months old, and she is now 3. Madeline's mother has repeatedly taken Madeline for medical evaluation of possible sexual abuse during a 34 month period. Madeline has had at least 13 examinations for sexual abuse. Dr. Petrak writes that there are clearly other visits that she was not aware of and has not reviewed.

Dr. Petrak writes that Regardless of the reported concern for which Madeline's mother repeatedly photographs Madeline's genitalia and records video of her behaviors, it is not healthy for Madeline and is invasive to her privacy. She writes that it is difficult to teach a child Madeline's age about body safety if a parent is continually examining the child's genitals and photographing what they believe to be abnormalities, particularly if they manipulate the genitals while taking photos. There is a risk to Madeline of injury when her mother "manipulates" Madeline's genitals while taking photos.

Dr. Petrak writes it is excessive for a child of Madeline's age to have had repeated exams for sexual abuse that she has had, as well as the number of evidence collection kits performed. Even when a child is cooperative Dr. Petrak writes there is a risk of injury if the move during the evidence collection. Beyond the risk of physical injury, there is a risk of emotional and psychological injury due to the intense focus by Madeline's mother on possible sexual abuse and multiple examinations. Dr. Petrak writes that she has concerns that Madeline may sustain physical or emotional injury by her mother due to her mother's intense focus on sexual abuse of Madeline and thus, being subjected to repeated examinations. Madeline has not disclosed sexual abuse to an investigator or a medical person. Madeline's mother has persistently requested that Madeline be evaluated for sexual abuse despite PRC providing extensive education to Madeline's mother regarding her concerns being due to normal behaviors and normal findings. Dr. Petrak writes that Madeline would not have had numerous medical exams or laboratory exams for sexual abuse if her mother had not provided history of possible sexual abuse to Madeline. Dr. Petrak writes that is is her medical opinion that Madeline's mother requesting multiple sexual abuse evaluations and evidence collections kits, as well as taking multiple photos of Madeline's genitalia has placed Madeline at serious risk of harm and constitutes medical child abuse.

Julia also completed a psychological evaluation on 10/14/16. She was diagnosed with Delusional Disorder, Obsessive Compulsive Disorder, Generalized Anxiety Disorder, and Paranoid Personality Disorder with Histrionic Features. She was recommended to attend psychotherapy, with a focus on comparing her delusional thoughts to reality, and showing her how an individual like her can misinterpret or exaggerate the actions of others to become part of a delusional belief system. In the recommendations of this psychological evaluation it states Delusional Disorder can be difficult to treat, but some patients respond to treatment with pharmacotherapy, including antipsychotics and antidepressants managed by a psychiatrist. The recommendations also state that the biggest part in treatment of Delusional Disorder and other paranoid individuals is that they feel that there is nothing wrong with them, and thus, refuse treatment. When this occurs, the delusions can last for years. "For the sake of her daughter, Ms. Eickmeier should be encouraged to attend treatment.

Evidence suggesting an incident did not occur or that the alleged perpetrator is not responsible:

There is no evidence that suggests that these incidences did not occur.

Allegation Rationale:

According to Rules and Procedures 300, the definition of Substantial Risk of Physical Injury is that "the parent, caregiver, immediate family member, other person residing in the home or the parent's paramour, has created a REAL AND SIGNIFICANT DANGER of physical injury which would likely cause disfigurement, death or impairment of physical health or loss or impairment of bodily functions.

This allegation of harm is to be used when the type or extent of harm is undefined but the total circumstances would lead a reasonable person to believe that the child is in substantial risk of physical injury. This allegation also includes incidents of violence or intimidation directed toward the child which have not yet resulted in injury or impairment but which clearly threaten such injury or impairment (Abuse) or placing a child in an environment which is injurious to their health and welfare (neglect).

Option B Medical Child Abuse

(Factitious Disorder by Proxy or Munchausen by Proxy Syndrome)

Medical Child Abuse is a form of child harm that is characterized by a parent/caregiver who intentionally and persistently lies, fakes, and/or produces illness in the child and repeatedly presents the child for medical assessment/treatment.

Dr. Petrak from the Pediatric Resource Center in Peoria reviewed various records that were sent to her in regards to Julia's ongoing behavior of taking Madeline to various hospitals to be checked out for sexual abuse. Dr. Petrak writes the following in essence not verbatim: Madeline's mother has been concerned about someone sexually abusing Madeline since she was 7 months old, and she is now 3. Madeline's mother has repeatedly taken Madeline for medical evaluation of possible sexual abuse during a 34 month period. Madeline has had at least 13 examinations for sexual abuse. Dr. Petrak writes that there are clearly other visits that she was not aware of and has not reviewed.

Dr. Petrak writes that Regardless of the reported concern for which Madeline's mother repeatedly photographs Madeline's genitalia and records video of her behaviors, it is not healthy for Madeline and is invasive to her privacy. She writes that it is difficult to teach a child Madeline's age about body safety if a parent is continually examining the child's genitals and photographing what they believe to be abnormalities, particularly if they manipulate the genitals while taking photos. There is a risk to Madeline of injury when her mother "manipulates" Madeline's genitals while taking photos.

Dr. Petrak writes it is excessive for a child of Madeline's age to have had repeated exams for sexual abuse that she has had, as well as the number of evidence collection kits performed. Even when a child is cooperative Dr. Petrak writes there is a risk of injury if the move during the evidence collection. Beyond the risk of physical injury, there is a risk of emotional and psychological injury due to the intense focus by Madeline's mother on possible sexual abuse and multiple examinations. Dr. Petrak writes that she has concerns that Madeline may sustain physical or emotional injury by her mother due to her mother's intense focus on sexual abuse of Madeline and thus, being subjected to repeated examinations. Madeline has not disclosed sexual abuse to an investigator or a medical person. Madeline's mother has persistently requested that Madeline be evaluated for sexual abuse despite PRC providing extensive education to Madeline's mother regarding her concerns being due to normal behaviors and normal findings. Dr. Petrak writes that Madeline would not have had numerous medical exams or laboratory exams for sexual abuse if her mother had not provided history of possible sexual abuse to Madeline. Dr. Petrak writes that is is her medical opinion that Madeline's mother requesting multiple sexual abuse evaluations and evidence collections kits, as well as taking multiple photos of Madeline's genitalia has placed Madeline at serious risk of harm and constitutes medical child abuse.

Julia also completed a psychological evaluation on 10/14/16. She was diagnosed with Delusional Disorder, Obsessive Compulsive Disorder, Generalized Anxiety Disorder, and Paranoid Personality Disorder with Histrionic Features. She was recommended to attend psychotherapy, with a focus on comparing her delusional thoughts to reality, and showing her how an individual like her can misinterpret or exaggerate the actions of others to become part of a delusional belief system. In the recommendations of this psychological evaluation it states Delusional Disorder can be difficult to treat, but some patients respond to treatment with pharmacotherapy, including antipsychotics and antidepressants managed by a psychiatrist. The recommendations also state that the biggest part in treatment of Delusional Disorder and other paranoid individuals is that they feel that there is nothing wrong with them, and thus, refuse treatment. When this occurs, the delusions can last for years. "For the sake of her daughter, Ms. Eickmeier should be encouraged to attend treatment. Per Procedure 300 there is enough evidence to support an indicated finding of allegation 10b. Report indicated.

Alleged Perpetrator: EICKMEIER, JULIA
Alleged Victim: Kramer, Madeline
Relationship: Mother
Allegation: 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect
Allegation Finding: Indicated

"For the sake of her daughter, Ms. Eickmeier should be encouraged to attend treatment.

Evidence suggesting an incident did not occur or that the alleged perpetrator is not responsible:

There is no evidence that suggests that these incidences did not occur.

Allegation Rationale:

Per Procedure 300 the definition of allegation 60- Environment Injurious to Health and Welfare by Neglect is as follows:

Environment Injurious means that a child's environment creates a likelihood of harm to the child's health, physical well-being or welfare and that the likely harm to the child is the result of blatant disregard of parent or caregiver responsibilities. This allegation shall be used when the type of extent of harm is undefined but the totality of circumstances, including inculpatory and exculpatory evidence, leads a reasonable person to believe that the child's environment may likely cause harm to the child's health, physical well-being or welfare due to the parent's or caretaker's blatant disregard. Blatant disregard is defined as an incident where the real, significant and imminent risk of harm would be so obvious to a reasonable parent or caretaker that it is unlikely that a reasonable parent or caretaker would have exposed the child to the danger without exercising precautionary measures to protect the child from harm. This allegation of harm shall also be used when there are conditions that create a real, significant and imminent likelihood of harm to the child's health, well-being or welfare (i.e., domestic violence, intimidation, or a child participation in a criminal act) and the parent

or caretaker blatantly disregarded his/her parental responsibility by failing to exercise reasonable precautionary measure to prevent or mitigate the imminent risk of moderate to severe harm.

Dr. Petrak from the Pediatric Resource Center in Peoria reviewed various records that were sent to her in regards to Julia's ongoing behavior of taking Madeline to various hospitals to be checked out for sexual abuse. Dr. Petrak writes the following in essence not verbatim: Madeline's mother has been concerned about someone sexually abusing Madeline since she was 7 months old, and she is now 3. Madeline's mother has repeatedly taken Madeline for medical evaluation of possible sexual abuse during a 34 month period. Madeline has had at least 13 examinations for sexual abuse. Dr. Petrak writes that there are clearly other visits that she was not aware of and has not reviewed.

Dr. Petrak writes that Regardless of the reported concern for which Madeline's mother repeatedly photographs Madeline's genitalia and records video of her behaviors, it is not healthy for Madeline and is invasive to her privacy. She writes that it is difficult to teach a child Madeline's age about body safety if a parent is continually examining the child's genitals and photographing what they believe to be abnormalities, particularly if they manipulate the genitals while taking photos. There is a risk to Madeline of injury when her mother "manipulates" Madeline's genitals while taking photos.

Dr. Petrak writes it is excessive for a child of Madeline's age to have had repeated exams for sexual abuse that she has had, as well as the number of evidence collection kits performed. Even when a child is cooperative Dr. Petrak writes there is a risk of injury if the move during the evidence collection. Beyond the risk of physical injury, there is a risk of emotional and psychological injury due to the intense focus by Madeline's mother on possible sexual abuse and multiple examinations. Dr. Petrak writes that she has concerns that Madeline may sustain physical or emotional injury by her mother due to her mother's intense focus on sexual abuse of Madeline and thus, being subjected to repeated examinations. Madeline has not disclosed sexual abuse to an investigator or a medical person. Madeline's mother has persistently requested that Madeline be evaluated for sexual abuse despite PRC providing extensive education to Madeline's mother regarding her concerns being due to normal behaviors and normal findings. Dr. Petrak writes that Madeline would not have had numerous medical exams or laboratory exams for sexual abuse if her mother had not provided history of possible sexual abuse to Madeline. Dr. Petrak writes that is is her medical opinion that Madeline's mother requesting multiple sexual abuse evaluations and evidence collections kits, as well as taking multiple photos of Madeline's genitalia has placed Madeline at serious risk of harm and constitutes medical child abuse.

Julia also completed a psychological evaluation on 10/14/16. She was diagnosed with Delusional Disorder, Obsessive Compulsive Disorder, Generalized Anxiety Disorder, and Paranoid Personality Disorder with Histrionic Features. She was recommended to attend psychotherapy, with a focus on comparing her delusional thoughts to reality, and showing her how an individual like her can misinterpret or exaggerate the actions of others to become part of a delusional belief system. In the recommendations of this psychological evaluation it states Delusional Disorder can be difficult to treat, but some patients respond to treatment with pharmacotherapy, including antipsychotics and antidepressants managed by a psychiatrist. The recommendations also state that the biggest part in treatment of Delusional Disorder and other paranoid individuals is that they feel that there is nothing wrong with them, and thus, refuse treatment. When this occurs, the delusions can last for years. "For the sake of her daughter, Ms. Eickmeier should be encouraged to attend treatment. Per Procedure 300 there is enough evidence to support an indicated finding of allegation 60. Report indicated.

Incident Information

Incident Date: 10/03/2016

Incident Address: 2830 4th St, Lot 13, Peru, IL 61354-3162, La Salle

Protective Custody

Child Name: Kramer, Madeline
PC Date/Time: 10/04/2016 03:30 PM
Outcome Date/Time: 10/05/2016 03:30 PM
Legal Outcome: Custody Lapsed by DCFS
Completed By: FLORES, DENISE
PC Taker Type: DCFS
PC Taker Name: Ann Patton
Parent Notified: Yes
Removed From: Home of Parents
PC Consult Supervisor: Denise Flores
PC Consult Date/Time: 10/04/2016 03:30 PM

Placement Address: Peru IL.
Summary:

**Child Endangerment Risk Assessment Protocol
Safety Determination Form**

| | | |
|---|--|-----------------------------------|
| Case Group Name: Eickmeier, Julia | Date of Report: 10/03/2016 | Agency Name: DCFS |
| RSF: 1B 29 | Date Of This Assessment: 10/04/2016 Date of Certification: 10/06/2016 | Investigation ID: 2266966A |
| Name of Worker Completing Assessment: PATTON, ANN ID#: 4271331 | | |

Safety Assessment Safety Milestone

When To Complete the Form: Child Protection Investigation

CERAP safety assessments must be conducted on the child's home environment, at a minimum, at the following case milestones:

Milestone: Within 24 hours after the investigator first sees the child.

Safety Threat Identification

1. A caregiver, paramour or member of the household whose behavior is, or has been, violent and out of control.
No
2. A caregiver, paramour or member of a household suspected of abuse or neglect that resulted in moderate to severe harm to a child or who has made a plausible threat of such harm to a child.
No
3. A caregiver, paramour or member of the household who has a documented history of perpetrating child abuse/neglect or any person for whom there is a reasonable cause to believe that he/she previously abused or neglected a child. The severity of that maltreatment, coupled with the caregiver's failure to protect, suggests that child safety may be an urgent and immediate concern.
No
4. Child sexual abuse is suspected and circumstances suggest that the child safety may be an immediate concern.
No
5. A caregiver, paramour or member of the household is hiding the child, refuses access, or there is some indication that a caregiver may flee with the child.
No
6. Child is fearful of his/her home situation because of the people living in or frequenting the home.
No
7. A caregiver, paramour, or member of the household describes or acts toward the child in a predominantly negative manner.
No
8. A caregiver, paramour, or member of the household has dangerously unrealistic expectations for the child.
No

9. A caregiver, paramour or member of the household expresses credible fear that he/she may cause moderate to severe harm to a child.
No
10. A caregiver, paramour or member of the household has not, will not, or is unable to provide sufficient supervision to protect a child from potentially moderate to severe harm.
No
11. A caregiver, paramour or member of the household refuses to or is unable to, meet a child's medical or mental health care needs and such lack of care may result in moderate to severe harm to the child.
No
12. A caregiver, paramour or member of the household refuses to or is unable to meet the child's need for food, clothing, shelter, and/or appropriate environmental living conditions.
No
13. A caregiver, paramour or member of the household whose alleged or observed substance abuse may seriously affect his/her ability to supervise, protect or care for the child.
No
14. A caregiver, paramour or member of the household whose observed or professionally diagnosed or documented mental/physical illness or developmental disability seriously impairs his or her ability to meet the immediate needs of the children.
Yes

15. The presence of violence, including domestic violence, that affects a caregiver's ability to provide care for a child and/or protection of a child from moderate to severe harm.

No

16. A caregiver, paramour, member of the household or other person responsible for the child's welfare engaged in or credibly alleged to be engaged in human trafficking poses a safety threat of moderate to severe harm to any child in the home.

No

Family Strength/Mitigation Circumstances

No Family Strength records.

Safety Decision

UNSAFE - The child or children are likely to be moderately to severely harmed in the immediate future.

Child Endangerment Risk Assessment Protocol Safety Determination Form

| | | |
|--|--|-----------------------------------|
| Case Group Name: Eickmeier, Julia | Date of Report: 10/03/2016 | Agency Name: DCFS |
| RSF: 1B 29 | Date Of This Assessment: 10/04/2016 Date of Certification: 10/06/2016 | Investigation ID: 2266966A |
| Name of Worker Completing Assessment: PATTON, ANN | | |
| ID#: 4271331 | | |

Safety Assessment Safety Milestone

When To Complete the Form: Child Protection Investigation

CERAP safety assessments must be conducted on the child's home environment, at a minimum, at the following case milestones:

Milestone: Whenever evidence or circumstance suggests that a child's safety may be in jeopardy.

Safety Threat Identification

1. A caregiver, paramour or member of the household whose behavior is, or has been, violent and out of control.
No
2. A caregiver, paramour or member of a household suspected of abuse or neglect that resulted in moderate to severe harm to a child or who has made a plausible threat of such harm to a child.
No
3. A caregiver, paramour or member of the household who has a documented history of perpetrating child abuse/neglect or any person for whom there is a reasonable cause to believe that he/she previously abused or neglected a child. The severity of that maltreatment, coupled with the caregiver's failure to protect, suggests that child safety may be an urgent and immediate concern.
No
4. Child sexual abuse is suspected and circumstances suggest that the child safety may be an immediate concern.
No
5. A caregiver, paramour or member of the household is hiding the child, refuses access, or there is some indication that a caregiver may flee with the child.
No
6. Child is fearful of his/her home situation because of the people living in or frequenting the home.
No
7. A caregiver, paramour, or member of the household describes or acts toward the child in a predominantly negative manner.
No
8. A caregiver, paramour, or member of the household has dangerously unrealistic expectations for the child.
No

9. A caregiver, paramour or member of the household expresses credible fear that he/she may cause moderate to severe harm to a child.
No
10. A caregiver, paramour or member of the household has not, will not, or is unable to provide sufficient supervision to protect a child from potentially moderate to severe harm.
No
11. A caregiver, paramour or member of the household refuses to or is unable to, meet a child's medical or mental health care needs and such lack of care may result in moderate to severe harm to the child.
No
12. A caregiver, paramour or member of the household refuses to or is unable to meet the child's need for food, clothing, shelter, and/or appropriate environmental living conditions.
No
13. A caregiver, paramour or member of the household whose alleged or observed substance abuse may seriously affect his/her ability to supervise, protect or care for the child.
No
14. A caregiver, paramour or member of the household whose observed or professionally diagnosed or documented mental/physical illness or developmental disability seriously impairs his or her ability to meet the immediate needs of the children.
No
15. The presence of violence, including domestic violence, that affects a caregiver's ability to provide care for a child and/or protection of a child from moderate to severe harm.
No
16. A caregiver, paramour, member of the household or other person responsible for the child's welfare engaged in or credibly alleged to be engaged in human trafficking poses a safety threat of moderate to severe harm to any child in the home.
No

Family Strength/Mitigation Circumstances

No Family Strength records.

Safety Decision

SAFE - The child or children are currently safe.

Protective custody of Madeline was taken on 10/04/16 and she was placed with her biological father, Kevin Kramer on this date. PC was lapsed on 10/05/16 at 4:00 p.m. after Kevin was granted an

emergency OP in the Civil Court not allowing any contact between Julia and her daughter, Madeline. CPI staffed case with PSA, Denise Flores via phone on 10/05/16 after the Civil Court hearing. Denise approved safe CERAP in due to emergency OP be granted to the father. CERAP safe.

No
5. A caregiver, paramour or member of the household is hiding the child, refuses access, or there is some indication that a caregiver may flee with the child.
No
6. Child is fearful of his/her home situation because of the people living in or frequenting the home.
No
7. A caregiver, paramour, or member of the household describes or acts toward the child in a predominantly negative manner.
No

8. A caregiver, paramour, or member of the household has dangerously unrealistic expectations for the child.

No

9. A caregiver, paramour or member of the household expresses credible fear that he/she may cause moderate to severe harm to a child.

No

10. A caregiver, paramour or member of the household has not, will not, or is unable to provide sufficient supervision to protect a child from potentially moderate to severe harm.

No

11. A caregiver, paramour or member of the household refuses to or is unable to, meet a child's medical or mental health care needs and such lack of care may result in moderate to severe harm to the child.

No

12. A caregiver, paramour or member of the household refuses to or is unable to meet the child's need for food, clothing, shelter, and/or appropriate environmental living conditions.

No

13. A caregiver, paramour or member of the household whose alleged or observed substance abuse may seriously affect his/her ability to supervise, protect or care for the child.

No

14. A caregiver, paramour or member of the household whose observed or professionally diagnosed or documented mental/physical illness or developmental disability seriously impairs his or her ability to meet the immediate needs of the children.

No

15. The presence of violence, including domestic violence, that affects a caregiver's ability to provide care for a child and/or protection of a child from moderate to severe harm.

No

16. A caregiver, paramour, member of the household or other person responsible for the child's welfare engaged in or credibly alleged to be engaged in human trafficking poses a safety threat of moderate to severe harm to any child in the home.

No

Family Strength/Mitigation Circumstances

No Family Strength records.

Safety Decision

SAFE - The child or children are currently safe.

At the time of case closing Madeline remains in the care of her father, Kevin Kramer. He still has an active OP against Julia whereas she cannot have any contact with Madeline. No issues or concerns with Madeline in the care of her father at time of case closing. CPI staffed case via phone with PSA, Denise Flores on 11/22/16. Based on above approval given for safe CERAP.

Type of Plan: Placement

Section III.

Safety Plan Termination Condition.

Explain what must occur with respect to controlling the identified safety threats before the safety plan can be terminated.

Protective Custody of Madeline was taken on 10/04/16 and she was placed with her biological father.

Risk Assessment

Investigation Name: Eickmeier, Julia

Investigation ID: 2266966 A

Assessment ID: 183105

Assessment Date: 10/06/2016

Risk Determination: Risk to a child in this family has been identified

Intervention: 3 yo Madeline has been taken to various hospital's by her mother, Julia Eickmeier to be examined for allegedly being sexually abused by her father, Kevin Kramer. Madeline has been subjected to 4 rape kits. She has been seen at PRC twice. Edwards hospital several times, IVCH and at Perry Memorial and others. None of the rape kits were positive for any type of sexual abuse, Madeline has made no disclosures at any of these medical facilities or at the two VSI/CAC interviews that's she participated in. Staff at IVCH reported that they found Julia's stories to be unbelievable for any type of sexual abuse she is reporting about her 3 yo daughter. Allegation 10b- Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare Medical Child Abuse (Factitious Disorder by Proxy or Munchausen by Proxy Syndrome and allegation 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect are currently being investigated against Julia due to all of the times she has taken Madeline to various hospital to be checked for sexual abuse with negative results each time. Protective Custody of Madeline was taken from Julia on 10/4/16. Custody was lapsed on 10/5/16 after biological father, Kevin Kramer was granted an emergency OP against Julia not allowing her to have any contact with Madeline at all pending further Civil Court decisions and DCFS /LE investigations.

Participants Included

| Name | Role | DOB |
|------------------|-------|------------|
| EICKMEIER, JULIA | Adult | 04/14/1991 |
| Kramer, Madeline | Child | 01/20/2013 |

Participants Excluded

| Name | Role | DOB | Reason Not Included |
|------|------|-----|---------------------|
|------|------|-----|---------------------|

Trauma Experiences

1. **Sexual Abuse**
0 - There is no evidence that child has experienced sexual abuse.
2. **Physical Abuse**
0 - There is no evidence that child has experienced physical abuse.
3. **Emotional Abuse**
2 - Child has experienced a moderate degree of emotional abuse. For instance, child may be consistently denied emotional attention from caregivers, insulted or humiliated on an ongoing basis, or intentionally isolated from others.

Describe:

3 yo Madeline has been taken to various hospital's by her mother, Julia Eickmeier to be examined for allegedly being sexually abused by her father, Kevin Kramer. Madeline has been subjected to 4 rape kits. She has been seen at PRC twice. Edwards hospital several times, IVCH and at Perry Memorial and others. None of the rape kits were positive for any type of sexual abuse, Madeline has made no disclosures at any of these medical facilities or at the two VSI/CAC interviews that's she participated in. Staff at IVCH reported that they found Julia's stories to be unbelievable for any type of sexual abuse she is reporting about her 3 yo daughter.

4. **Neglect**
0 - There is no evidence that child has experienced neglect.
13. **Parental Criminal Behavior (birth parents and legal guardians only)**
0 - There is no evidence that youth's parents have ever engaged in criminal behavior.

Child Strengths

20. **Family**
1 - Moderate level of family strengths. There is at least one family member with a strong loving relationship who is able to provide limited emotional or concrete support.

Life Domain Functioning

32. **Living Situation**
1 - Mild problems with functioning in current living situation. Caregivers express some concern about child's behavior in living situation and/or child and caregiver have some difficulty dealing with issues that arise in daily life.
34. **Developmental/Intellectual**
0 - No evidence of developmental problems or mental retardation.
38. **Physical**
0 - Child has no physical limitation.

Child Behavioral/Emotional Needs

54. **Substance Abuse**
0 - This rating is for a child who has no substance use difficulties at the present time. If the person is in recovery for greater than 1 year, they should be coded here, although this is unlikely for a child or adolescent.

Child Risk Behaviors

67. Delinquency

0 - Child shows no evidence or has no history of criminal or delinquent behavior.

Safety

98. Condition of the Home

1 - Minor health or safety concerns on property that pose no threat and are easily correctable.

99. Marital/Partner Violence in the Home

1 - Mild to moderate level of family problems including marital difficulties and partner arguments. Parent/caregivers are generally able to keep arguments to a minimum when child is present. Occasional difficulties in conflict resolution or use of power and control by one partner over another.

Describe:

Julia and Kevin are no longer together. They have been involved in the Civil Court for over a year with issues of custody/visitation of Madeline.

Knowledge of Parenting and Child Development

102. Discipline

1 - Parent/caregiver is often able to set age appropriate limits and to enforce them. On occasion her/his interventions may be too harsh, too lenient, or inconsistent. At times, her/his expectations of her/his children may be too high or too low.

104. Demonstrates Effective Parenting Approaches

1 - Parent/caregiver(s) has knowledge of parenting practices that are consistent with child's needs and development, but may struggle at times to effectively implement them.

Identification and Use of Concrete Supports in Times of Need

107. Financial Status

1 - Family has financial resources necessary to meet most needs; however, some limitations exist.

Positive Family, Community and Social Connections

113. Partner Relations

2 - Parent/Caregiver's current relationship causes distress that may interfere with parent/caregiver.

Describe:

Julia and Kevin are no longer together. They have been involved in the Civil Court for over a year with issues of custody/visitation of Madeline.

116. Natural Supports

1 - Parent/caregiver(s) has natural supports but some limitations exist whereby these supports are insufficient to address some family and child needs.

Ability to Nurture Social and Emotional Competence of Children

118. Parent/Caregiver's Understanding of Impact of Own Behavior on Children

3 - Parent/caregiver(s) has no understanding or denies any impact of his/her behavior on children.

Describe:

Julia does not appear to have any idea on the significant negative impact her behavior is having on Madeline in regards to repeatedly taken her to various hospitals/doctors for rape kits and sexual abuse examinations when 3 yo Madeline has not made any outcry's to any professional about being sexually abused.

119. Empathy with Children

- 1 - Parent/caregiver is generally emotionally empathic and typically attends to child's emotional needs.

Factors Contributing to Parent/Caregiver Resilience

121. Physical Health

- 0 - Parent/caregiver(s) has no physical health limitations that require assistance or impact childcare.

122. Mental Health

- 2 - Parent/caregiver(s) has significant mental health limitations that make difficult or prevent them from being able to care for the child without immediate assistance.

Describe:

Allegation 10b- Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare Medical Child Abuse (Factitious Disorder by Proxy or Munchausen by Proxy Syndrome and allegation 60-Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare by Neglect are currently being investigated against Julia due to all of the times she has taken Madeline to various hospital to be checked for sexual abuse with negative results each time.

123. Substance Use

- 1 - Parent/caregiver(s) has some substance-related limitations that interfere or may interfere with parenting ability and childcare.

124. Developmental

- 1 - Parent/caregiver(s) has some developmental limitations that interfere or may interfere with his or her ability for childcare at this time.

Created Date/Time: 10/04/2016 09:35 AM

PSA Flores and CPI Patton called this AA to discuss this new case. This AA is familiar with the family due to a number of sex abuse reports called in on this very young child. Based on the fact that mom has again subjected this child to a sex abuse exam and is causing emotional harm to this child PC is going to be taken. Mom has repeatedly made sexual abuse allegations against the father, with whom she is in a custody battle, and all have been unfounded. This report was taken on mom as a 10a as there was no evidence of any sexual abuse.

Email from Advocacy office:

This e-mail is sent as information only to just alert the field that Ms. Julia Eickmeier has contacted the Advocacy Office regarding concerns for the safety of her daughter. Ms. Eickmeier is claiming her daughter's father where the child is currently placed has threatened to kill her daughter, kill himself and to kill Ms. Eickmeier. Ms. Eickmeier stated her daughter has been a repeated victim of sexual abuse by her father and although there have been witnesses including doctors and day care personnel, along with videos, all reports have been unfounded. With the pending investigation, Ms. Eickmeier is claiming the investigator lied in court which allowed the child's father to obtain an order of protection. Ms. Eickmeier was informed that the current order from the court stands until she returns to court with her attorney to obtain a change in the order. Ms. Eickmeier was informed of her right to appeal the current investigation should it be indicated and she was furthermore provided with the contact information for the Office of the Inspector General to make a report with that office regarding her claim that the investigator has lied. Please be assured Advocacy is familiar with this family. This current call to Advocacy is the fourth call Ms. Eickmeier has placed to our office. We have reviewed the previous and current investigations. Ms. Eickmeier volunteered information that the field believes she has Munchhausen's and has been asking her for quite some time to complete a mental health evaluation. I encouraged her to follow through with that evaluation as soon as possible. Again, this e-mail is just information only. A response to our office is not necessary. Should you decide to forward a response, we will assure your comments are added to the Advocacy intervention. Rita Robson, Advocacy Supervisor.

Investigation ID: 2266966A
Contact Date/Time: 10/04/2016 08:45 AM
Contact Type: In Person
Worker Contacted: PATTON, ANN M.
Worker ID: 4271331
Supervisor: FLORES, DENISE M.
Sub-Category: Supervisory Consultation
Created By Worker: FLORES, DENISE M.
Created Date/Time: 10/04/2016 08:55 AM

Initial Supervision:

This supervisor and CPI discussed contents of the report. This is an A sequence report. The report alleges allegation #10b-substantial risk of harm/environment injurious to the health and welfare of the minor/-

medical child abuse (factitious disorder by proxy or Munchausen by proxy) by mom to minor age 3.

The mother brought the 3yo in to the Hospital for a rape kit stating she found a stain in the minors underwear after returning from a visit with he father. Hospital records show concerns of Munchausen's by proxy syndrome. This is the 4th rape kit the minor has had and the 10th hospital visit. The hospital is familiar with the mom. Four previous sexual abuse cases against the father are noted in Sacwis, all have been unfounded.

A related information was reported by police:

On Monday 10/3/2016 at the Peru Police Dept. received a call from Edwards Hospital. Julia (mother) brought her 3-year-old daughter Madeline to ER, late in the evening Sunday 10/2/2016. The police were advised of the situation on 10/3. Madeline lives with Julia, who has full custody of the child at this time. There is a custody battle going on between Julia and the child's father Kevin. Madeline has visitation with her father on the weekends. When Kevin returned the child to Julia yesterday, 10/2, Julia said "she found a green discharge in her daughter's underwear. Julia did not call police but decided to take Madeline to the hospital and asked that the child have sexual assault exam. The police have record of at least 7 previous reports of mother accusing father of sexually abusing the child. (SACWIS lists Unfounded reports.) Julia was court-ordered on 9/20/2016 "to undergo a psych evaluation," but every time Julia is ordered by the court to do something, "Julia again reports sexual abuse from the father toward the child." The [REDACTED] stated even though their office and the District Attorney believes Julia is "making up" these allegations against the father. The [REDACTED] stated he wil schedule another VSI for the child with CAC, "just to make sure." The child has not made any disclosure or outcry about being sexually abused. The nurse at Edwards Hospital who examined Madeline stated, "there was no sign of trauma to the child." The [REDACTED] stated Julia has no official mental illness diagnoses at this time "but Julia had quite a bit of trauma in her life when she was 16; her boyfriend at the time committed suicide."

CPI to contact [REDACTED] CPI to meet mandate. CPI to interview child victim(s) and perpetrator as well as all subjects in the home regarding all information contained in the narrative. CPI to provide notification/Cants 8 letter and explain allegations to alleged perpetrator. CPI to review prior history and request CANTS/LEADS. CPI to complete DASA and DV screen. CPI to observe home environment and complete home safety checklist with signatures. CPI to assess safety of the child and staff CERAP with PSA. CPI to obtain any noted police contacts/reports. CPI to obtain PCP information and collateral contact information and obtain necessary releases of information.

CPI spoke to former investigators, Jennifer Lewis and Cate Yerly to obtain background history on the investigations that were called that the investigated on Kevin. Both report that all the reports on Kevin have been unfound. Both report Julia has taken Madeline to PRC twice where no evidence of any sexual abuse was found nor did Madeline make any outcry's of sexual abuse. Both report Julia continues to take Madeline to various hospitals to be examined for sexual abuse and to complete rape kits and there nothing has ever been proven on any type of sexual abuse to Madeline.

CPI called and spoke to Kevin Kramer, Madeline's father. Explained that DCFS has received a report in regards his daughter, Madeline. CPI explained to Kevin the nature of the allegations that were taken against Julia not him. CPI explained to Kevin that based on these pending allegations and review of past DCFS/hospital records, this CPI would be taking protective custody of his daughter today and placing her with him if he passes CANTS/LEADS check. Kevin provided his information in order for CPI to complete background check and advised him that CPU would be in touch with him later today for the placement. Kevin advised this CPI that Julia was court ordered in the Civil Court to complete a psychiatric evaluation on 9/20/16 but she never did this. He states she is now court ordered to complete this psychiatric evaluation on 9/14/16 in Peoria. Kevin advised that his mom and dad, Mary and Joe *Uncle* would be helping him watch Madeline while he goes to work. CPI advised same would call his mom to get information for background checks on them also.

CPI spoke to Dr. Rangala from Edwards Hospital. She states she has seen Madeline before and is now looking at Dr. Schutte's notes. She states in doing a quick review of the notes nobody has made an diagnosis of Muchausen by Proxy Syndrome but she would need more time to do a thorough review. CPI advised Dr. Rangala that it was a nurse from her hospital that call this in and in the narrative of DCFS report it states that "there is a concern of Munchausen by Proxy and it is listed in medical notes. Again Dr. states she will have to do a more thorough review but provided CPI medical records phone number of 331-221-6990. CPI requested that Dr. Martin Schutte be left a message to call CPI in regards to the 10/02/16 visit to Edwards by Julia and Madeline. CPI requested that Dr. Schutte leave the best phone number that CPI can reach him on if he is not at the number listed on the report at Edwards Hospital.

Supervisory- Protective custody discussed due to new allegations on the mom. The mom has again taken the minor for a rape kit exam. The minor is 3 and continues to be subjected to rape kit exams that have resulted in numerous allegations of unfounded sex abuse reports against the father. Placement with the dad is the option for the best interest of the minor. This is a child protection concern which appears to strongly suggest concern with the safety of the child in the mother's care. There is an active custody case. As of now the mom has residential custody and the dad has visitation. Case discussed with AA Marmion. AA in agreement with protective custody. Case was staffed with ASA and concern regarding a viable father being involved. Discussion regarding the minor being placed on a safety plan with the father.

CPI spoke to Kevin's attorney, Bob Steele. 815-228-3201 fax 815-224-3205. He states that Julia is court order to obtain a psychiatric evaluation with Dr. Jane Valez in Peoria on 10/14. He states he could possibly petition the Court on Thursday 10/6 for change of custody or OP. CPI explained to John that juvenile court frowns on DCFS taking protective custody of a child if there is another viable parent who could care for their child. CPI also explained that juvenile court does not want to get involved due to the pending Civil Court that has been going on between Julia and Kevin. CPI advised that DCFS will take protective custody but then could possibly lapse it if Kevin could be granted change of custody order or an OP in the Civil Court.

CPI spoke to [REDACTED] from Edwards Hospital. She states she never mentioned the term Munchausen by Proxy. She states she is an RN and cannot diagnosis this. CPI advised that this is mentioned in the narrative of the DCFS report stating it is listed as a concern in the medical notes. [REDACTED] states that treating physician, Dr. Schutte made verbal mention to the charge nurse, Carol Hensel stating that this appears to be Munchausen by Proxy. [REDACTED] states that Carol is a night shift nurse. [REDACTED] states that mom, Julia called the hospital and spoke to a pediatric nurse. She advised that she was bringing Madeline

in to be examined and then got she got upset with the peds unit for not staying open until she got there so she was seen in the emergency department. [REDACTED] states that DCFS could speak to the peds nurses about what has been going on with this mom. She states that they can open up there "care notes" and go to visits by mother. [REDACTED] explains that these notes are more of an "FYI" in the epic system.

CPI introduced herself to alleged perpetrator/offender, Julie Eickmeier at her residence. CPI explained to Julia that a report was called into the DCFS hotline and allegations were taken against her. CPI explained the nature of these allegations and advised pending further investigation into these allegations this CPI would be taking her daughter, Madeline into protective custody. Julia asked where Madeline was going to be placed. CPI advised that the plan right now was for her to be placed with her biological father, Kevin Kramer as he has parental rights to her. Julia expressed her frustration to this CPI stating something to the effect that DCFS was going to place her child with the person that has been sexually molesting her. CPI explained to Julia that CPI is aware Kevin has been investigated by DCFS for allegations of sexual abuse to Madeline in the past and that they have all been unfound reports. CPI also explained that same has reviewed various hospital records and has spoken to hospital staff and there is no indication medically of any sexual abuse to Madeline. CPI also explained that Madeline has not made any outcry's of being sexually abuse to any medical staff or at the two other VSI/CAC interviews that she participated in. CPI explained that this CPI completed background checks on Kevin and he was negative for any abuse/neglect history or criminal history. CPI explained to Julia that she can call this CPI tomorrow explaining further that CPI left a business card in her door with contact number on it. CPI explained that when she calls tomorrow CPI can advise her of date and time of shelter care hearing. Julia advised CPI that she does not want to speak to CPI any further and that she would not be calling CPI tomorrow or "ever".

CAC/VSI with alleged child victim, Madeline Kramer. Also present Laura Hall from LCSAO, John Atkins from Peru PD, Lisa Naive and Lori McLaughlin from CAC and Madeline's father, Kevin Kramer. *→ report*

This CPI conducted the VSI. Madeline identified body parts on both the male and female. Madeline denied that anybody has ever touched her where it is not ok to be touched. CPI asked Madeline if anybody ever did do this would she tell anyone. Madeline advised she would tell her dad. No disclosures made. See hard copy of police report of CAC interview that will be in file once it is received.

Q: How does she know who she can't be touched?

CPI spoke to Dr. Schutte from Edwards Hospital in Naperville. He was the treating ER doctor when Julia brought Madeline in this last time. He states that he did not diagnosis Munchausen by Proxy. He explained that they have a system where they can red flag notes. He states that Munchausen has previously been noted in a chart. He states as an ER doctor he does not get into the history of the family so he would not feel comfortable making this diagnosis. He states it does sound like Munchausen but adds this would have to be diagnosed by a psychiatrist. Dr. Schutte states that if Julia would have already been diagnosed with Munchausen he would not have completed a rape kit on Madeline. He states he does not get the results of the rape kit and this would have to be obtained through medical records. Dr. Schutte reported that it sounds like mom, Julia needs to be the patient not Madeline.

This Psa spoke with Bob Steele: He said he went into court today to get a continuance. It was granted and the new court date is 11-7-16. He said Kevin gave him consent to talk with Dr. Petrak. Bob sent the psychologist evaluating Julia all of the reports from the police, Dr., and us. I told him we wanted this evaluator to have enough info. He was faxing a copy of the new OP. No contact continues.

Final supervision- This case was reported on allegation #10a and #60 was added. The mom continues to bring the 3yo to medical exams claiming the child has been sexually abused by the dad. She has accused a Dr/psychiatrist as well as the paternal grandparents of sexually abusing the minor as well. All reports have been UNFOUNDED and some held for harassment by the dad. The case has been in civil court for an extensive period of time regarding custody. The mom was ordered to complete a psychological exam. The results note a diagnoses of Obsessive compulsive disorder, paranoid personality and. This was completed due to a domestic relations court order. A CAC interview was with no disclosures. The mom claims the minor was sexually abused by the father after the mom reportedly found stains in the minor's underwear. The report states this is the 4th rape kit the mom has requested and the 10th hospital visit for the minor. Law enforcement has been involved in the past and present and they are not pursuing cases in any of the reports due to lack of credible evidence. The maternal grandparents have cited concerns regarding the mom's mental health and have reported this was an issue for the mom in the past and she has been on medication. The dad had consistently denied the allegations and there has been no supportive evidence to substantiate any incidents.

The mother has shown DCFS videos in the past of her- mom- asking questions of the minor in reference to what daddy does to her. In some of the video the mom was observed trying to get the minor to focus on the questions and the mom is repeating the minor's name over and over to get her to attend to the questions. At one point the questioning appeared to be so pressured that the minor appeared to become very agitated and mentally exhausted from the mom's questioning. Due to the numerous reports DCFS took protective custody and placed the minor with the father. The father then obtained an order of protection and DCFS custody was then lapsed. CPI obtained numerous hospital and police records as well as the psychological report. The psychological evaluation denoted the mom as being diagnosed with Delusional Disorder, Obsessive Compulsive Disorder, Generalized Anxiety Disorder, and Paranoid Personality Disorder with Histrionic Features. Psychological report was obtained.

DCFS also sought the opinion of PRC DR Petrak regarding whether this would be considered 10b- Substantial Risk of Physical Injury/Environment Injurious to Health and Welfare Medical Child Abuse (Factitious Disorder by Proxy or Munchausen by Proxy Syndrome and Dr Petrak confirmed that in fact this would be the case for M. Eickmeier. The collateral reported "Julia has been doing this to Madeline and to her son for so long describing this as a "nightmare" for their family." There is no school involvement as the minor is 3/waiver approved. The minor receives regular medical care/waiver approved /CPI spoke to the nurse. The police and law enforcement all confirm the information. Waiver approved for out of state/family has only lived in Illinois.

There is sufficient evidence based upon the Dr. statements, psychological diagnoses, police reports and witness statements, therefore Psa concurs with recommended INDICATED finding on allegations #10 and #60.
